

BE AWARE of the SYMPTOMS OF OVARIAN CANCER...

A

- . A persistent bloating.
- . Abdominal, pelvic or lower back pain.
- . A difficulty eating/feeling full quickly.
- . Abdominal swelling.
- . Abnormal bleeding.
- . An urgent, more frequent need to urinate.

C

- . Consistent symptoms that don't go away.
- . Concern this is NOT normal for you.

T

- . Time to talk.
- . Tell your Doctor.
- . This could save your life.

NOW!

A Smear Test **CANNOT** Detect
Ovarian Cancer...
Symptom Awareness **CAN**.

An awareness campaign devised and funded by the Gill Harler Fund in partnership
